

If you would like to further explore Oracle Database you can take my course on advanced topics like below.

- Analytical Functions
- Table Partitions
- Materialized Views
- Hierarchical queries
- Group by Extensions
- Regular Expressions

I am offering this to my students for only \$10

<https://www.udemy.com/advanced-sql-tutorial/?couponCode=ADVSQL>

I really hope you found this course to be a great resource for you in exploring Oracle Database.

As you travelled through the course I'd love to get some feedback and also find out if there are any other topics you would find helpful.

If you ever have any questions at all please do not hesitate to contact me via the course discussion board or a private message. I'm here to help!

Enjoy!
